

## The Phoenix Group for Deaf Children and Young Adults wins the My Favourite Voucher Codes Charity Poll

Winning the My Favourite Voucher Codes profits for March 2019 is absolutely fantastic!

This money saving website, who provide online shoppers with the promo codes that they need to save money, donate a wonderful 20% of all of their profits to different charities every month. This gives a unique and fun opportunity to their consumers, who are able to both save money on their online shop and raise money for the not for profit organisations that need it the most within our society at the same time. Not only this, but those who visit the company's site are also able to vote for the charity that they want to receive the donation for that month, and it is totally free for them to do so - they are under no obligation to use any of the discounts provided in order to cast their votes!

After having begun this initiative in 2012, [My Favourite Voucher Codes](#) has managed to raise an overall value of £56,424 for a variety of different not for profit organisations in the United Kingdom. This includes both large scale and small scale charities!

For their March poll Phoenix was one of their three chosen charities in the UK ...and we are delighted that we won!

Our supporters, families and friends did their bit, along with many other people across the UK, having confidence in their desire that every penny raised would directly benefit deaf children and their families. As a result we are now receiving a fabulous donation from the company which will give us greater flexibility in what we can do and whom we can support, enabling us to help those that most need it even more.

Thank you.
